HEALTH, SAFETY AND THE CONSTRUCTION INDUSTRY

Construction projects are dangerous!

STATISTICS

From SafeWork Australia, 2020

36 fatalities

15,567 serious incidents

(injury resulting in greater than 1 week off work) including burns, fractures, lacerations, etc.

HEALTH AND SAFETY MANAGEMENT

The processes used to minimize the risk of harm while completing the project.

HEALTH AND SAFETY MANAGEMENT

Job Role: to ensure projects are delivered under budget and ahead of schedule

Ethical Responsibility: to ensure nobody gets hurt
