TRAINING AND VOC

Some job roles require specialist skills and expertise. **Verification of competency** and **further training** ensure these can be completed safely

EXAMPLES

- **Plant operators** - Crane, Excavator, Telehandler

- **Job roles** - electricians, plumbers, scaffold

- **Specific tasks** - first aiders, lift studies, excavation permits

- **Industry** - white card, rail, high voltage

PURPOSE

- Minimum safety standards
- Activity can be completed safely
- Critical risks managed
- Legislative requirements met
- Quality standards

VERIFICATION OF COMPENTENCY

series of checks/tests to prove somebody has the required competencies to complete a task

VERIFICATION OF COMPETENCY

LICENSES/ACCREDITATION	TESTING
Check and verify that somebody holds the correct licenses (EWP, Electrical, Working at Heights, Heavy Vehicle)	Checklist to verify they can operate the plant/machinery correctly

TRAINING

Contractors may organise and conduct on-going training to ensure workers possess the desired competencies and can complete tasks safely

TRAINING

- Vehicle operations
- Working at heights
- Snake handling
- Working in the rail corridor
- Working with live electricity
- Manual handling

TOOLS

- Training record/register
- VOC record/register
- Awareness of skills requirements
- Supervision and management
- Signage and barricading
- Stickers on hard hats
